CMYK Distributors, Inc. Announces First U.S. Installation of New Preproofer at Colonial Printing Company in Warwick, RI

*CMYK Distributors, Inc., is the exclusive U.S. distributor of Swiss manufacturer Digital Information's renowned **InkZone** ink-presetting and closed-loop product line, including the new Preproofer 770/970 and 790/990*

Weymouth, MA- February 18, 2011 – CMYK Distributors, Inc. today announced the first U.S. installation of Swiss manufacturer Digital Information's latest **Preproofer 970**, at Colonial Printing Company in Warwick, RI. The faster and more automated **Preproofer 970** incorporates sophisticated registration technology and supports presses up to 43"/109 cm, giving Colonial Printing a definite edge in producing brilliant quality two-sided prints. Colonial Printing Company was introduced to the **Preproofer 970** by The Tripp Company of Braintree, MA. The Tripp Company, part of CMYK's exclusive dealer network, is New England's leading supplier of consumable products and services for the graphic arts industry. They are also certified to provide installation, training and technical support to their customer base on all InkZone products.

For more than three decades, Colonial Printing has achieved success by producing printed communication material with quality of the highest caliber, in a responsive and flexible manner. Since 1975, the family-owned and operated Colonial Printing Company has developed the infrastructure and the supporting systems to handle just about any printing challenge. And, the addition of Digital Information's new **Preproofer** is the latest acquisition in Colonial Printing's equipment arsenal.

The **Preproofer**, which was unveiled by Digital Information in 2010, is the world's leading system in double-sided proofing. Equipped with Epson's latest line of Stylus Pro large-format printers, the new models bring a substantial increase in printing speed and color fidelity.

Colonial Printing Company is committed to streamlining and simplifying the printing process. With their clients' needs in mind, Colonial Printing has systematically enhanced its business with the latest technologies on the market. "As an innovative and forward-thinking company, Colonial Printing has made some significant capital investments in equipment recently," said Ray Menna, Owner of Colonial Printing. "Digital Information's new **Preproofer** is our latest acquisition and we are very pleased with the performance of this piece of equipment. It definitely lives up to its promise to provide high-quality double-sided proofing. And, because the **Preproofer** comes with DI-Plot bitmap-proofing software, we were able to easily integrate the product into our prepress workflow." With a wide variety of output formats, the **Preproofer** models can be aligned to create prints in formats rivaling most configurations of offset presses and post-press equipment used in the printing industry. This latest version of the **Preproofer** solution affords today's printer a whole new range of highly-attractive application areas.

"Colonial Printing is a top-notch operation and we are delighted to be working with them," said William Fabiano, Director of Technology, CMYK Distributors. "The installation of Digital Information's new **Preproofer** at Colonial

represents a significant milestone for Digital Information. The **Preproofer** has already seen much success in the international printing community. And, we look forward to similar results in the U.S., starting with Colonial Printing.”

For more information on the **Preproofer** and **InkZone** ink-presetting and closed-loop technology, please visit www.digiinfo.com or call Mark Williams, Director of Sales for CMYK Distributors, Inc. at 973-459-0524.

About Digital Information

Digital Information. was founded in 1990 in Switzerland by Michael Haenni and Christoph Bugs, both IT specialists with a background in media. Today, the company is internationally recognized in the graphics industry for the quality and ROI of its ink-presets and closed-loop technology products. In close collaboration with a growing number of partners, Digital Information develops and produces software and hardware based solutions for the graphics industry. With several thousand installed licenses, DI-Plot has become a standard name in the graphics industry. The InkZone product line, launched by Digital Information in 2001, has enabled hundreds of printers to integrate their existing and new presses into their digital networks. The Preproofer, in turn, has become today’s most successful double-sided proof system. For more information on Digital Information, please visit www.digiinfo.com.

About Colonial Printing Company

Founded in 1975 by current owner Ray Menna, Colonial Printing remains a family owned and operated business located in Warwick, Rhode Island. Colonial Printing’s mission has been to achieve success by producing printed communication material with quality of the highest caliber, in a responsive and flexible manner. Colonial Printing has presses ranging from 12” x 18” all the way up to 28” x 40” to accommodate any project. There is no job too large or too small. Colonial Printing has worked tirelessly to establish long term relationships with a customer base consisting of colleges & universities, advertising agencies, independent graphic design firms, manufacturers, high technology companies, as well as insurance and financial institutions.
