CMYK Distributors, Inc. Announces Exclusive U.S. Distribution Rights for Filter Klear™ Fountain Recycling System

Weymouth, MA- August 8, 2011 – CMYK Distributors, Inc. today announces the addition of Filter Klear™ Fountain Recycling System to its arsenal of products and services designed to reduce waste and increase efficiency in the pressroom. CMYK Distributors has officially entered into a relationship with Keystone Filtration Solutions, a Met-Pro Filtration/Purification technologies business, to become the exclusive U.S. distributor of Filter Klear™ and is delighted to introduce this revolutionary new product to the U.S. printing and graphics market.

The Filter Klear™ Fountain Recycling System meets a critical need in the pressroom. Utilizing advanced nanofiber technology featuring ceramic nanofibers on a micro-glass matrix, Filter Klear™ provides outstanding reduction of virus, bacteria, cysts, endotoxin and many other submicron particles through both electro-adhesion and mechanical processes. In simple language, Filter Klear™ prevents dust and gunk in water trays which enhances print quality, provides better hickey control, less plate wear, and less plate scumming and tinting. And, it is made right here in the U.S.A.

“We are very excited about the Filter Klear™ Fountain Recycling System,” said Mark Williams, Director of Sales, CMYK Distributors, Inc. “The real and measurable results of Filter Klear™ are astounding. Zero discharge. Zero waste of incoming water. This product is truly a win for your bottom line and for the environment.”

The Filter Klear™ system is lightweight and portable. It is easy to install and connects directly to the press via the air supply hose. Benefits include:

- ✓ Zero Discharge; Zero Waste of Incoming Water
- ✓ Biofilter Technology (cuts odor and bacteria)
- ✓ Reduces Press Downtime and Maintenance
- ✓ Decreases Fountain Solution Consumption and Disposal Costs
- ✓ Cost effective

“We look forward to working with the team at CMYK Distributors to roll out Filter Klear™ and we are confident that the product will revolutionize the way waste water is handled in the printing industry,” said Robert Werner, National Product Manager, Keystone Corporation. “CMYK Distributors is deeply committed to offering eco-friendly solutions that improve quality, productivity, and efficiency in the pressroom. We know that CMYK Distributors, Inc. will do an excellent job driving the Filter Klear™ Fountain Recycling System to market.”

For more information on the Filter Klear™ Fountain Recycling System, please call Mark Williams of CMYK Distributors, Inc. at 973-459-0524 or visit www.cmykdistributors.com.
