## **CMYK Distributors to Demonstrate the Latest Innovations in Waste Reduction Technology & Pressroom Automation Driving the Printing Industry toward a Sustainable Future at Print '13**

*Waste reduction technology and pressroom automation are critical to saving time and money and reducing the overall carbon footprint of the printing industry. Visit CMYK Distributors in booths 969 & 970 to learn more.*

*Weymouth, MA- (August 13, 2013)* – Paper waste is not only hurting the bottom line of many commercial printers, it is hurting our environment. According to the Environmental Paper Network, once it is at the landfill, the carbon present in paper waste decomposes to produce methane, a potent greenhouse gas. Due to poor process control and inefficient methods for maintaining color consistency, many commercial printers are losing money in wasted paper and other consumables which contribute to the industry's carbon footprint. However, through the latest innovations in waste reduction technology and pressroom automation available through CMYK Distributors, Inc., pressrooms can significantly decrease wasted consumables like paper and improve their make-ready times, becoming more efficient and environmentally sustainable while saving money.

CMYK Distributors, Inc., the exclusive North American distributor of Digital Information's InkZone ink-presetting and closed-loop technology, is the industry authority on products and services that promote sustainability in the commercial printing arena and they are pleased to announce that they will be demonstrating the latest in waste reduction technology and pressroom automation in their booths, 969 & 970, at Print '13 in Chicago, IL on September 8 – 12, 2013.

The CMYK Distributors, Inc. Print '13 product line-up includes:

### **InkZone Ink-Presets & Closed Loop Solutions-**

Digital Information's InkZone Ink-Presets & Closed Loop Solutions deliver state-of-the-art ink key presetting and closed loop color control technology for all offset presses for substantially shorter make-ready time, reduced paper waste, and considerably-improved color quality.

### **InkZone Instrument Flight® by System Brunner-**

InkZone Instrument Flight by System Brunner is the premium upgraded product solution of InkZone for comprehensive quality color control, process diagnosis, and quality assessment, allowing users to harness the power of the world's leading closed-loop instrumentation with the most sophisticated technology in standardization and printing process verification.

### **The DJet-**

The DJet is an innovative new double-sided proofing system for the economical production of short runs featuring Epson quality, as well as an ultra-fast inkjet print solution for the output of double-sided imposition proofs. Capable of printing up to 40 double-sided 8-up forms per hour, the speed and accuracy of this system is unlike anything the industry has ever seen. CMYK Distributors is delighted to demonstrate the power of the all new DJet in the U.S. for the first time at Print '13.

### **Filter Klear Fountain Filtration System-**

Utilizing advanced nanofiber technology featuring ceramic nanofibers on a micro-glass matrix, the Filter Klear Fountain Filtration System by Keystone Corporation, a Met-Pro company, provides outstanding reduction of

calcium, virus, bacteria, cysts, endotoxin and many other submicron particles through both electro-adhesion and mechanical processes, filtering particulates down to .002 microns. By incorporating Filter Klear into the press room, users can virtually eliminate tank and pan maintenance and significantly reduce their consumption of fountain solution.

#### **About CMYK Distributors, Inc.**

CMYK Distributors, Inc., headquartered in Weymouth, MA, is the leading distributor and installer of graphics and printing products that bring automation and waste reduction technology to the industry, while conserving environmental resources. CMYK Distributors, Inc. is the exclusive distributor of Digital Information products in North America, including the renowned InkZone product line. CMYK Distributors, Inc. also has exclusive U.S. distribution rights to Filter Klear Fountain Filtration Systems by Keystone Corporation, a Met-Pro company. For more information on CMYK Distributors, Inc.'s products and services, visit [www.cmykdistributors.com](http://www.cmykdistributors.com).

#### **About Digital Information**

Digital Information was founded in 1990 in Switzerland by Michael Haenni and Christoph Bugs, both IT specialists with a background in media. Today, the company is internationally recognized in the graphics industry for the quality and ROI of its ink-presets and closed-loop technology products. In close collaboration with a growing number of partners, Digital Information develops and produces software and hardware based solutions for the graphics industry. With several thousand installed licenses, DI-Plot has become a standard name in the graphics industry. The InkZone product line, launched by Digital Information in 2001, has enabled commercial printers to integrate their existing and new presses into their digital networks. For additional information on Digital Information, visit [www.digiinfo.com](http://www.digiinfo.com).

#### **About System Brunner**

System Brunner, global leader in process control, color control, quality assurance and standardization, develops and markets system solutions for the graphics industry. For more than 30 years System Brunner has led the way in the definition of industry standards for classic printing processes, from prepress through to printing. System Brunner's competence is based on a comprehensive knowledge of the printing processes and highly developed measuring, interpretation and evaluation methods. EUROSTANDARD/GLOBALSTANDARD is the most comprehensive, internationally recognized industry standard. The reference values are integrated in all the products with INSTRUMENT FLIGHT\* technology. System Brunner partners are: QuadTech, KBA, manroland, Digital Information. For more information on System Brunner, please visit [www.systembrunner.com](http://www.systembrunner.com).

#### **About Met-Pro**

Met-Pro Corporation, with headquarters at 160 Cassell Road, Harleysville, Pennsylvania, is a leading niche-oriented global provider of product recovery, pollution control, fluid handling and filtration solutions. The Company's diverse and synergistic solutions and products address the world's growing need for clean air and water, reduced energy consumption and improved operating efficiencies. Through its global sales organization, internationally recognized brands, and operations in the United States, Canada, South America, Europe and The People's Republic of China, Met-Pro's solutions, products and systems are sold to a well-diversified cross-section of customers and markets around the world. For more information, please visit [www.met-pro.com](http://www.met-pro.com).
