CMYK Distributors Inks Deal: Becomes Exclusive Distributor of Complete Tecco Product Line in North America

CMYK Distributors Opens Warehouse Operations for Tecco Product Line in Massachusetts

Weymouth, MA- (November 10, 2015) – CMYK Distributors today announces an agreement with Tecco to become the exclusive dealer of all Tecco paper products in North America. This agreement represents a significant expansion of the relationship between CMYK Distributors and Tecco. CMYK Distributors' warehouse operations for the Tecco product line is based in Worcester, MA.

Tecco is a producer and converter of uncoated and coated Inkjet and laser papers/print substrates and paper-based offset printing forms. Tecco offers an incomparable range of products for core markets including proofing, photo, production, and laser printing.

Products immediately available in North America through CMYK Distributors include:

Tecco: Production- The Tecco: Production product family includes tailor-made inkjet printing media for professional printing jobs. Tecco: Production features more than 40 different products for various indoor and outdoor applications with a unique choice of matte, semi-matte, and glossy papers for the LFP market. Special products are available such as Screen Film, Backlit, and Self-Adhesive Media; banner materials made of vinyl or Tyvek; and media that is water resistant and B1 certified. All Tecco: Production papers are available in sheets and rolls. Roll widths are available up to 64".

Tecco: EFI- Working in close cooperation with EFI, Tecco offers high-quality proofing, photo, and production media for proofing, photo, and production applications for complete color confidence. This product family features more than 40 types of original EFI papers. These papers are Fogra and SWOP/GRACOL certified with EFI or Fogra/EFI backprint. In addition, contract proof papers are available for ISO conform proofing and for the perfect simulation of all relevant paper types and printing conditions.

Tecco: LFP- This new product line for large format printers features durable print substrate specially developed for eco-solvent, mild-solvent, and true-solvent printers to meet the standards of the POS advertising/marketing, banner, poster, fairs, and fine art printing markets. LFP products are also suitable for latex and UV printers. Tecco: LFP is available in rolls from 24" to 64".

Tecco: DryLabs- Tecco: DryLabs papers are specially developed for inkjet based, chemistry-free mini-labs. The instant-dry and wipe-proof professional inkjet media with high-gloss or pearl-gloss surface are

designed for printing the highest quality output. Tecco: DryLab papers match the look and feel of analogue photo papers and they are compatible with DryLabs by Noritsu, Fuji, and Epson.

Tecco: Laser- Tecco: Laser features a wide array of products for the up-and-coming laser printing market. Substrates in this line include film, FineArt paper, self-adhesives, DUO-paper, etc. all of which are ideal for graphic and photo applications and are available in matte, semi-matte, and glossy finish from 70 g/m² up to 300 g/m²

About Tecco

Paper pioneer Tecco is a world-wide operating, global player in the paper industry. After partnerships with well-known companies, famous artists, photographers and musicians and after setting numerous norms and standards, Tecco was granted a membership in the oldest and most famous photo club in the world, the Royal Photographic Society of Great Britain (RPS) and won numerous awards, amongst them the coveted EDP Award (European Digital Press Association).

Today, Tecco is considered innovation leader and trend setter in the market for photo, fine art, proofing and LFP media. Tecco papers hold all relevant international certifications: Fogra, SWOP, GraCol, Henry Wilhelm Research as well as the environmental certifications FSC and PEFC.

From November 2015 Tecco has a new modern corporate design and a new slogan: "Post It For Now. Print It Forever!"

Tecco is a subsidiary company of Chugai Photo Chemicals and associate company of Ilford.
